Shift to Growth

April 2026

IMPORTANT NOTICE - YOU MUST READ THE FOLLOWING BEFORE CONTINUING

This presentation and the Fiscal Year 2024-25 results conference (French and English sessions) contain forward-looking statements, including statements regarding Company's expectations for (i) the timing, progress and outcome of its clinical trials; (ii) the clinical benefits and competitive positioning of its product candidates; (iii) the ability of its products to obtain regulatory approvals, commence commercial production and achieve market penetration and sales; (iv) its future product portfolio; (v) its future partnering arrangements; (vi) its future capital needs, capital expenditure plans and ability to obtain funding; and (vii) prospective financial matters regarding our business. Although the Company believes that its expectations are based on reasonable assumptions, any statements other than statements of historical facts that may be contained in this This presentation and the Fiscal Year 2024-25 results conference (French and English sessions) relating to future events are forward-looking statements and subject to change without notice, factors beyond the Company's control and the Company's financial capabilities.

These statements may include, but are not limited to, any statement beginning with, followed by or including words or phrases such as "objective", "believe", "anticipate", "expect", "foresee", "aim", "intend", "may", "anticipate", "estimate", "plan", "project", "will", "may", "probably", "potential", "should", "could" and other words and phrases of the same meaning or used in negative form. Forward-looking statements are subject to inherent risks and uncertainties beyond the Company's control that may, if any, cause actual results, performance, or achievements to differ materially from those anticipated or expressed explicitly or implicitly by such forward-looking statements. A list and description of these risks, contingencies and uncertainties can be found in the documents filed by the Company with the Autorité des Marchés Financiers (the "AMF") pursuant to its regulatory obligations, including the Company's universal registration document, filed with the AMF on July 28, 2022, (the "Universal Registration Document"), as well as in the documents and reports to be published subsequently by the Company. In particular, readers' attention is drawn to the section entitled "Facteurs de Risques" on page 24 of the Universal Registration Document.

Any forward-looking statements made by or on behalf of the Company speak only as of the date they are made. Except as required by law, the Company does not undertake any obligation to publicly update these forward-looking statements or to update the reasons why actual results could differ materially from those anticipated by the forward-looking statements, including in the event that new information becomes available. The Company's update of one or more forward-looking statements does not imply that the Company will make any further updates to such forward-looking statements or other forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements.

This presentation and the Fiscal Year 2024-25 results conference (French and English sessions) are for information purposes only. The information contained herein does not constitute an offer to sell or a solicitation of an offer to buy or subscribe for the Company's shares in any jurisdiction, in particular in France. Similarly, this presentation does not constitute investment advice and should not be treated as such. It is not related to the investment objectives, financial situation, or specific needs of any recipient. It should not deprive the recipients of the opportunity to exercise their own judgment. All opinions expressed in this document are subject to change without notice. The distribution of this presentation may be subject to legal restrictions in certain jurisdictions. Persons who come to know about this presentation are encouraged to inquire about, and required to comply with, these restrictions

All information in the presentation and the Fiscal Year 2024-25 results conference (French and English sessions) speaks only as of (1) the date hereof, in the case of information about the Company and (2) the date of such information, in the case of information from persons other than the Company. The Company does not undertake any duty to update or revise the information contained herein, publicly or otherwise. The Company has not independently verified any third-party information and makes no representation as to the accuracy or completeness of any such information.

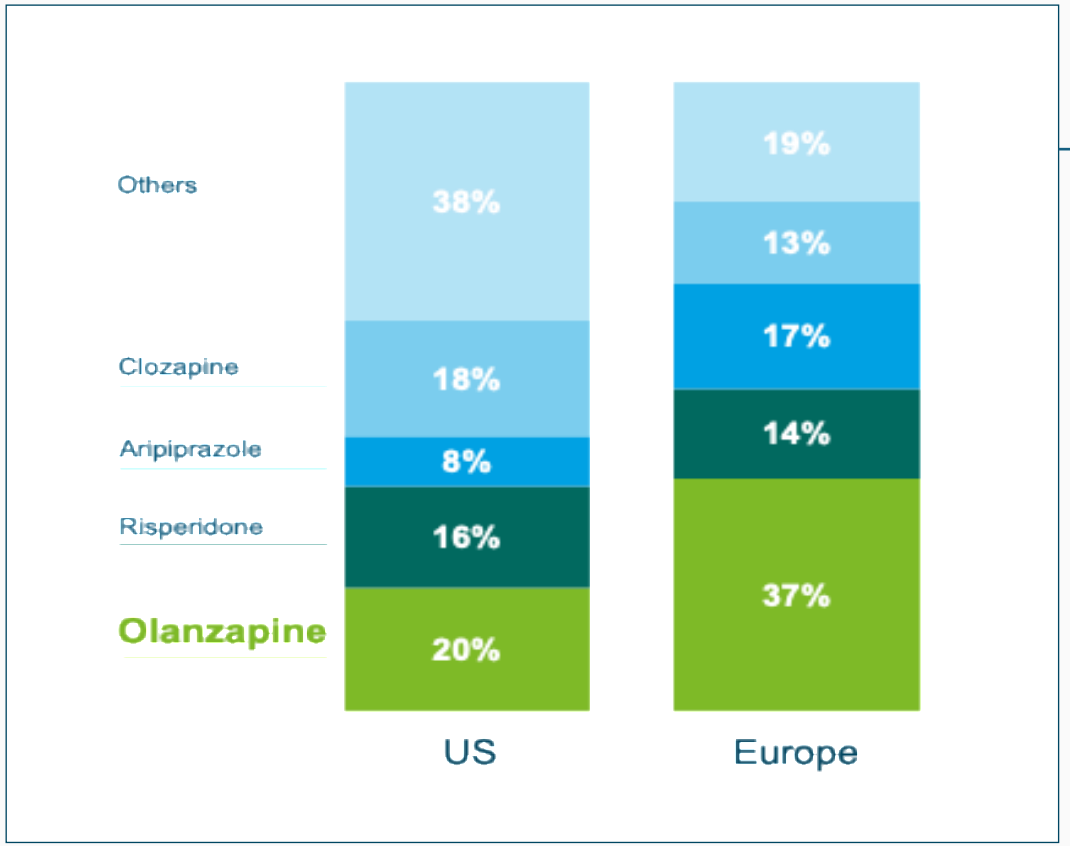
OLANZAPINE LAI

Once-monthly subcutaneous injection of olanzapine

December 9, 2025
Submission to U.S. FDA for the maintenance treatment of Schizophrenia in adults
> FDA approval expected in Q4 2026

April 28, 2025
European submission to for the maintenance treatment of Schizophrenia in adults
> Acceptance expected in Q2 2026

Olanzapine LAI is Designed to Address a High Unmet Medical Need



- Most-used oral antipsychotic in schizophrenia
- Used for most severe and refractory patients
- First-in-class potential, no valid competitor

Olanzapine LAI: Analysts' Peak Sales Forecasts[1]

Analysts' Consensus: $2.0B

Low: $1.5B - High: $2.9B

[1] Based on most recent information received from analysts: Evercore, Truist, HC Wainwright, Jefferies, Stifel, Oddo BHF, Portzamparc, Kepler Chevreux, TP-Icap. Any opinions, estimates, or forecasts regarding Medincell's performance made by analysts are theirs alone and do not represent opinions, forecasts, or predictions of Medincell or its management.

Revenue potential for Medincell

Royalties	**Mid- to high-single digit on all net sales**
Milestones	**US Approval: $4 M** **EU Approval: $3 M** **Commercial: $105 M**

Olanzapine LAI was Designed to Resolve Eli Lilly's PDSS-Linked Market Failure

Risk of PDSS* associated with Eli Lilly product's

- Overdose-like reaction risk at each injection
- Caused by unintended intravascular burst exposure during injection

Regulatory restrictions on use

- Mandatory 3-hour monitoring on site after each injection
- Restricted distribution (REMS)

▶ **Commercial failure**

* Post-Injection Delirium and Sedation Syndrome

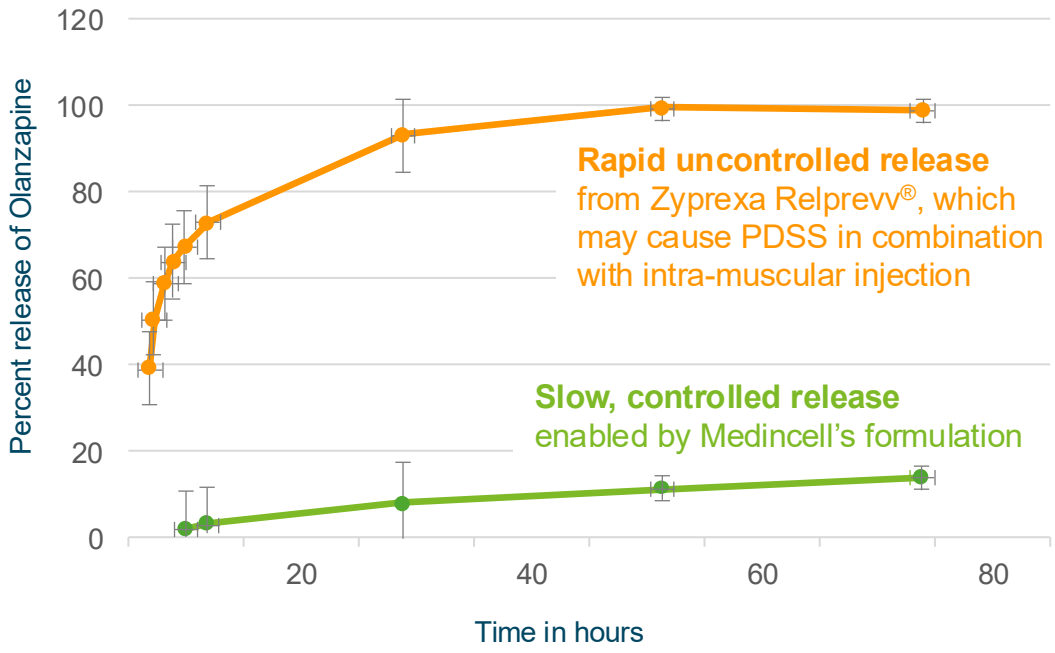
Strong Evidence that Medincell Olanzapine LAI Will Not Cause PDSS

Clinical evidence

3600 injections
were required by FDA to demonstrate absence of risk of PDSS

~4,000 injections
performed across multiple clinical studies, with no PDSS observed

In vitro evidence
Release tested in human plasma



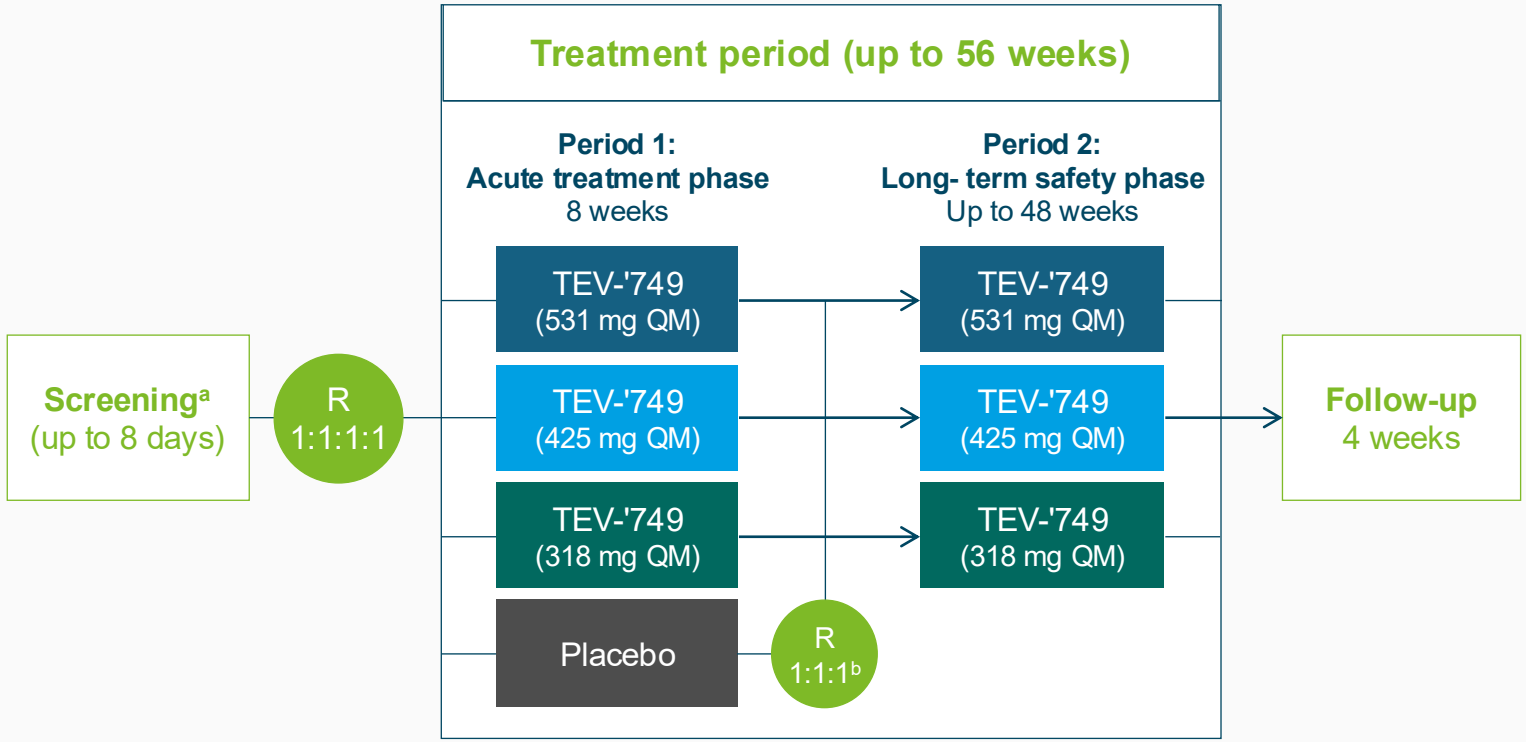
medincell.

“No required monitoring for Medincell Olanzapine LAI is expected to drive Olanzapine LAI usage growth.”

Teva Q3 2025 Results presentation, Nov. 5, 2025

SOLARIS - Pivotal Phase 3

Phase 3 randomized, double-blind, placebo-controlled (Period 1), open- label long-term safety (Period 2) trial to evaluate efficacy, safety in adult patients with acute exacerbation of schizophrenia



Period 1 (8 weeks, n=675) aimed to assess the efficacy and safety, of TEV- '749 schizophrenia.

In Period 2 (n=423), Period 1 TEV-'749 participants retained their treatment, placebo patients were re-randomized 1:1:1 to TEV-'749 (318 mg, 425 mg, or 531 mg).

TEV-'749 doses were comparable to daily oral olanzapine doses of 10 mg, 15 mg, and 20 mg.

a. Participants entering the trial who had not previously received oral olanzapine within the last year received 2 oral doses of olanzapine for 2 consecutive days at the screening period to assess tolerability. The investigator verified the previous use, tolerability, and duration of olanzapine treatment to assure prior tolerability.
b. To maintain the blinding in Period 1, all participants were re-randomized between Periods 1 and 2; participants previously assigned to the active treatment groups retained their Period 1 treatment assignment (rerandomization was done to maintain blinding of Period 1, and de facto is a deterministic assignment and not randomization), and participants previously assigned to placebo were randomized to one of the active treatment groups in a 1:1:1 ratio. Participants were hospitalized for >28 days after receiving the first injection. QM, once monthly; R, randomization.
Correll CU, et al. Poster #97 presented at the 38th Psych Congress 2025; December 17-21, 2025; San Diego, CA, USA

SOLARIS - Positive Results

Demonstrated long-term clinical effectiveness in all groups

- **Improvements in PANSS Total Score**
- **Sustained improvement in CGI-S and PSP scale scores**

Long-term safety profile consistent with other olanzapine formulations

- **No new systemic safety signals**
- **Mild/moderate injection site reactions decreasing with continued dosing**
- **No PDSS Events**

Sources: Teva Pharmaceuticals – Poster presented at the 38th Psych Congress 2025; September 17-21, 2025; San Diego, CA, USA

Olanzapine LAI, Expected Timeline

9 Dec. 2025	✓	**NDA submission to U.S. FDA** (10-Month review)
Feb. 2026	✓	**NDA acceptance by U.S. FDA**
Q4 2026		**Approval by U.S. FDA** **U.S. commercial launch**
Q2 2026	✓	**Submission in Europe**
